SECTION 1 - OVERVIEW

1.1 - Document Purpose

This document provides the latest information on changes made to the 407.7 release of the e-Care IV application. The intended audience is all end users of the product.

1.2 - Background

MED e-Care provides a full platform with an integrated Electronic Health Record (EHR) system, in French and English, for complete management of the Resident Care Lifecycle. From single-home independents to large chains, our healthcare software links an organization's clinical, medication, financial and business processes to manage and use information for progressive improvements. Increased operational effectiveness, funding opportunities, staff productivity, quality of resident care, and reduced risk to business are accomplished with MED e-care's software.

1.3 – Documentation

Product documentation is available in the Med e-Care *e-Care IV User manuals*. To view MED e-Care product documentation in PDF format, log into the application and navigate to the *Help* section. Manuals are printable from that location.

SECTION 2 – What’s New in this Release

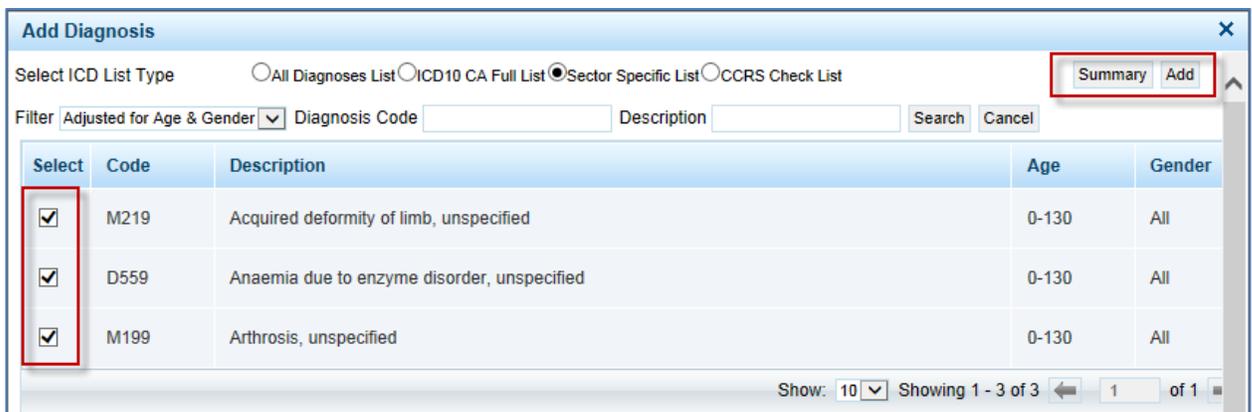

2.1 e-ADT

2.1.1 FEATURE: Selectable Diagnoses from Search

LOCATION: e-ADT > Admission Document > Client Health Status Tab> Diagnoses

ENHANCEMENT: Adding diagnoses through ADT or Care Plan is now faster and easier. When searching for diagnoses, the user is now able to select multiple options by checking the relevant check boxes.

Select the required diagnoses and then click on the Summary option to view all selected items at once. Click Add to save the items to the record.

2.1.2 FEATURE: Enhanced Diagnoses Search

LOCATION: e-ADT > Admission Document > Client Health Status Tab> Diagnoses

ENHANCEMENT: Searching for a diagnosis by code or description will now return search results by typing in at least a portion of the diagnosis.

Add Diagnosis X

<input type="checkbox"/>	CCRS-11mm	Diabetic Retinopathy	0-130	All
<input type="checkbox"/>	CCRS-11m	Hip Fracture	0-130	All

2.1.3 FEATURE: Veterans Affairs Number option

LOCATION: e-ADT > Admission Document > Client Identification Tab > Personal Identifiers

NEW: A new option to enter the resident’s Veterans Affairs Number has been added to the Admission Document. The option is available in the *Personal Identifiers* section.

2.1.4 FEATURE: New IAR Consent Type Column Display

LOCATION: e-ADT > IAR Consent Management

NEW: A new column has been added to show Consent Type. This column can be sorted by clicking on the header of the column to see all residents that have consent granted, denied or have not had consent data entered.

Use the Advanced Search option to further filter any search requirements.

2.1.5 FEATURE: Client Note Free Text

LOCATION: e-ADT > Admission Document > Client Information tab

NEW: The Client Note text area has been added to provide the user with a customizable option that allows for the addition of optional demographic information.

Personal Identifiers		
S.I.N.	MAR Number	Unique Lifetime Identifier
<input type="text"/>	47508	<input type="text"/>
Client Note		
<input type="text"/>		

2.1.6 FEATURE: Phone Number Format Mask

LOCATION: Settings > Facility > Options > Phone Number Format

NEW: A phone number format mask has been implemented that is used for validating phone number fields. The phone number mask is used for validating phone numbers in e-ADT client information and contact information, Employee setup and Facility contact information.

Navigate to the settings to select from the options.

The default format is xxx-xxx-xxxx (416-987-3454) but the user can select other options from the drop down list. If no predefined format meets facility needs, the user can select *User-defined Format* from the dropdown list and then type in preferred format in the *Set Optional Phone Number format* textbox. The *No Mask* option is also available for users who do not need a mask.

2.2 e-Assessments

2.2.1 FEATURE: CCRS Data Quality Tool

LOCATION: e-Assessments > Assessment Tools > CCRS Assessment > Assessment Scores > DQ Audit

NEW: This functionality has been added to the CCRS Assessment screen to show Data Quality issues found in the current assessment according to the CIHI data quality audit specifications. Any DQ items that would have been rejected by CIHI will be displayed in **red** so that coding can be modified prior to submission.

When in any CCRS Assessment, navigate to this section on the right hand side and click on 'DQ Audit' which is found directly underneath the Assessment Scores section.

Quarterly Review 3 (2011-12-09) Save Save & Exit Delete

DQ Audit			Episode Info
DQ Item	Value	Description	Form Sections
Height (K2a)	148.00	Resident's height must be between 120 cm (4 ft) and 210 cm (7 ft). Special values 1 and 248 are excluded.	Assessment Scores
Speech therapy (P1baB)	840.00	Total number of minutes that the resident received speech therapy during the last 7 days (P1baB should be less than 840 minutes).	35QI
Weight (K2b)	999.90	Resident's weight must be between 35.0 kg (77.0 lb) and 180.0 kg (396.0 lb). Special values 0.1 and 999.9 are excluded. The decimal is implied and not submitted.	CAPs

2.2.3 FEATURE: Ability to Select Assessment options for viewing

LOCATION: Settings > e-Assessments > Options

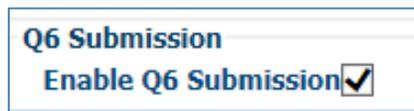

NEW: This new setting provides Facility Administrators with the ability to hide unwanted assessment tools for the e-Assessments module. This way, when viewing the e-Assessment module, only relevant options will be displayed.

2.2.4 FEATURE: Q6 Submission Functionality

LOCATION: Settings > e-Assessments > Options

NEW: An option now exists that provides a Facility Administrators with the ability to enable a Q6 submission.

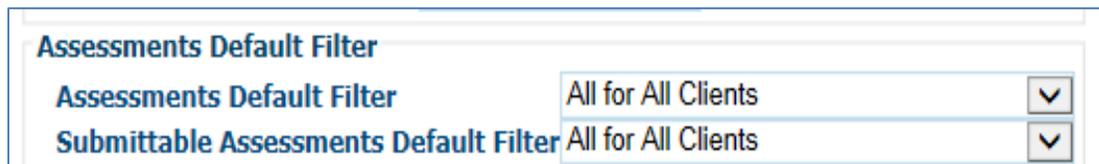

2.2.5 FEATURE: New Assessment Filter options

LOCATION: Settings > e-Assessments > Options

NEW: The default filter option for Assessments has been implemented.

Use the *Assessment Default Filter* option for Bulletin, Vital Signs and Custom Assessments.

Use the *Submittable Assessments Default Filter* option for CCRS, NRS, Alberta CCIS, OMHRS and CHA. If you leave these fields blank the default will continue to be *Overdue*.

For example, the *Assessment Default Filter* selects the default view for the Assessment Tools - Bulletin view. Select an option from the filter drop down list to modify viewing.

2.2.9 FEATURE: Rejection File Parser Integration

LOCATION: e-Assessments > Submission > Submission History > Manage (per file)

NEW: A Rejection File Parser has been integrated into the application to automatically flag files as per status: Accepted/Rejected.

The new **Upload Rejection File** button allows the user to browse for a save the rejection file after having downloaded it from CIHI.

The screenshot shows the 'Submission History' page. At the top, there is a navigation bar with various menu items. Below it, there are tabs for 'Submission', 'Submission History', 'IAR Submission', and 'IAR History'. The main content area displays 'Currently auditing file: CCR2011025443106'. A message states: 'Mark submission records as either Accepted or Rejected by clicking on the 'Status' field'. A yellow button labeled 'Upload Rejection File' is highlighted with a red box. Below this, there are search filters for 'Filter', 'Search Client', 'Chart Number', and 'Submission Identifier'. At the bottom right, there are 'Find' and 'Clear' buttons.

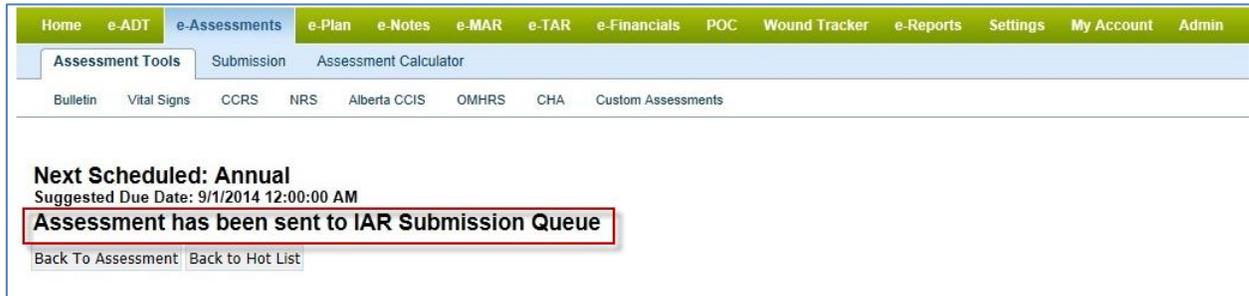

Once the file is saved successfully, files will be automatically marked according to their received status: Accepted/Rejected.

2.2.10 FEATURE: IAR Submission Queue Notification

LOCATION: e-Assessments > Assessment Tools > CCRS Assessment

NEW: Once an assessment is signed, the system will now display a message notifying the user that the file has been added to the queue for submission. The message will read “Assessment has been sent to the IAR Submission Queue”.

The screenshot displays the MEDe-care web application interface. The top navigation bar includes links for Home, e-ADT, e-Assessments, e-Plan, e-Notes, e-MAR, e-TAR, e-Financials, POC, Wound Tracker, e-Reports, Settings, My Account, and Admin. Below this, a sub-navigation bar shows Assessment Tools, Submission, and Assessment Calculator. Under Assessment Tools, there are links for Bulletin, Vital Signs, CCRS, NRS, Alberta CCIS, OMHRS, CHA, and Custom Assessments. The main content area displays the following information:

Next Scheduled: Annual
Suggested Due Date: 9/1/2014 12:00:00 AM

Assessment has been sent to IAR Submission Queue

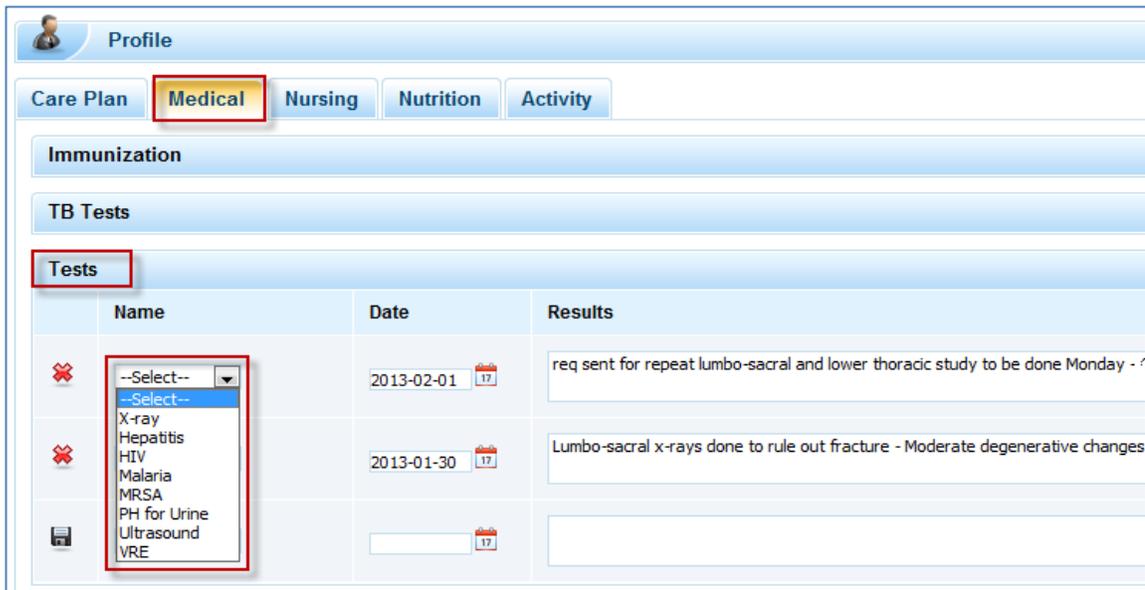

Back To Assessment | Back to Hot List

2.3 e-Plan

2.3.1 FEATURE: Tests Enhancement

LOCATION: e-Plan > Care Plan Resident Profile > Medical Tab > Tests

ENHANCEMENT: The *X-Ray* section of the medical tab has been renamed to *Tests*. This section includes a drop down menu for the selection of the test type (X-ray, Hepatitis, HIV, Malaria, MRSA, PH for Urine, Ultrasound and VRE), a calendar option to note the date of the test, and a free text box to clarify the given results.

	Name	Date	Results
✖	--Select--	2013-02-01 	req sent for repeat lumbo-sacral and lower thoracic study to be done Monday - 0
✖	X-ray	2013-01-30 	Lumbo-sacral x-rays done to rule out fracture - Moderate degenerative changes

Description	
1-1 Activities	1:1 Visit- 15 minutes. Discussed Thanksgiving Traditions.
Agitated Behaviour	Resident threw call bell beside her unto floor. I gave it back to her. "Wh calendar tomorrow to rule out UTI.
	Res. upper denture could not be taken out. Attempted twice with no effe
Group Reading	Chicken soup for the Soul - 25 minutes - 5 residents
	Bernice continues to refuse a suppository in the morning. No bowel mo morning when asked, she denies having a bowel movement since...

2.4.3 FEATURE: Quick Link to Full Incident Report

LOCATION: e-Notes > Incident Note > Summary Tab

ENHANCEMENT: A quick link to the Full Incident Note Report has been added to the Incident Note Summary tab. This link complements the existing location of the report from the e-Reports module. Previously only a link to the Summary Report was available. The user can now view the report directly from the summary screen without navigating away from e-Notes.

2.4.5 FEATURE: Enhanced Search for e-Notes

LOCATION: e-Notes > Add/Modify

ENHANCEMENT: The search client screen has been modified and will now allow the user to easily switch between the *Client Search* and *Client Notes* accordions. Only one section can be viewed at a time. However, click on the accordion to open and/or close it.

Below is an example of what Client Search looks like when opened.

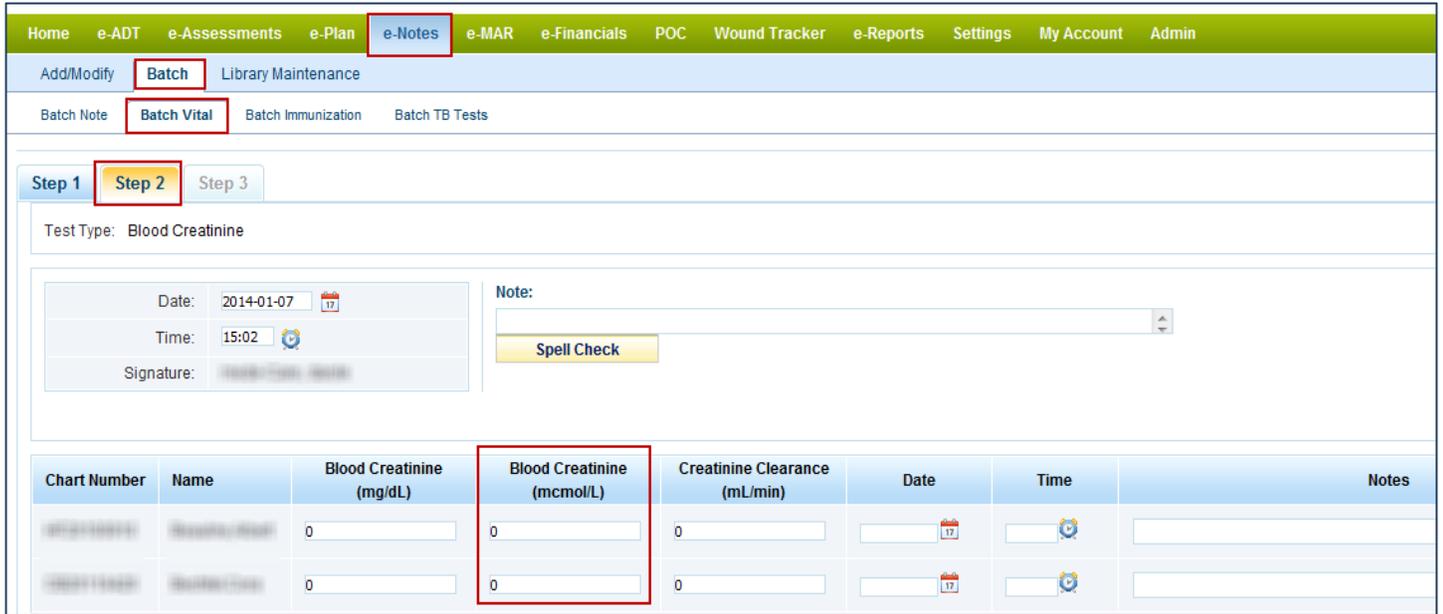

Below is an example of what Client Notes looks like when opened.

2.4.6 FEATURE: New Blood Creatinine Column

LOCATION: e-Notes > Batch > Batch Vital > Step 2

NEW: In Step 2 of performing a Batch Vital entry, a new field labelled Blood Creatinine (mcmol/L) has been added.

The screenshot shows the 'Batch Vital' entry process in Step 2. The interface includes a navigation bar with 'e-Notes' selected, and a breadcrumb trail: 'Home > e-ADT > e-Assessments > e-Plan > e-Notes > e-MAR > e-Financials > POC > Wound Tracker > e-Reports > Settings > My Account > Admin'. Below this, there are tabs for 'Add/Modify', 'Batch', and 'Library Maintenance', with 'Batch' selected. Under 'Batch', there are sub-tabs for 'Batch Note', 'Batch Vital', 'Batch Immunization', and 'Batch TB Tests', with 'Batch Vital' selected. The main content area shows 'Step 1', 'Step 2' (selected), and 'Step 3'. The 'Test Type' is 'Blood Creatinine'. There are input fields for 'Date' (2014-01-07), 'Time' (15:02), and 'Signature'. A 'Note' field with a 'Spell Check' button is also present. At the bottom, a table displays data for two entries, with the 'Blood Creatinine (mcmol/L)' column highlighted in red.

2.5 e-MAR

2.5.1 FEATURE: Medication Profile View for Discharged residents

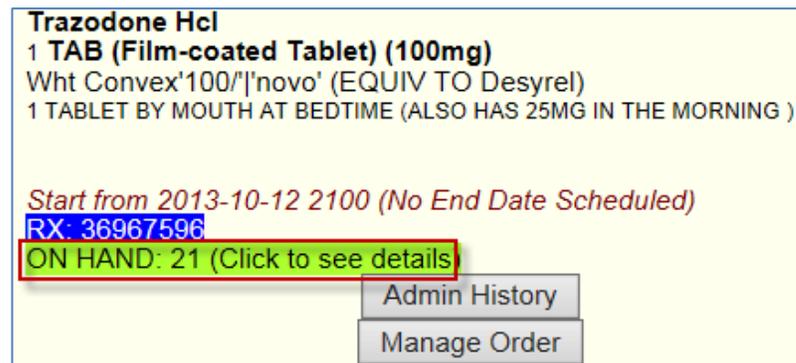

LOCATION: e-MAR > MAR/TAR > Orders > Medication Profile

NEW: Users are now able to search for and view the Medication Profile for discharged residents.

2.5.2 FEATURE: On Hand Medication Quantity Display

LOCATION: e-MAR > MAR/TAR > MED Pass Status > MAR Administration screen

NEW: An *On Hand* quantity will now be displayed on the MAR Administration screen. This amount is derived from summing up the individual on hand quantities for all orders in the medication chain. Clicking on the display will open up a summary of the order chain in table format.

The screenshot shows a medication profile for Trazodone Hcl. The text includes: 'Trazodone Hcl', '1 TAB (Film-coated Tablet) (100mg)', 'Wht Convex'100/'|'novo' (EQUIV TO Desyrel)', and '1 TABLET BY MOUTH AT BEDTIME (ALSO HAS 25MG IN THE MORNING)'. Below this, it states 'Start from 2013-10-12 2100 (No End Date Scheduled)' and 'RX: 36967596'. A red box highlights 'ON HAND: 21 (Click to see details)'. At the bottom right, there are two buttons: 'Admin History' and 'Manage Order'.

2.5.3 FEATURE: Controlled Drugs Setting for Double Signatures

LOCATION: Settings > e-MAR > Controlled Drug Schedules

NEW: A Controlled Drugs table in Settings has been provided thereby allowing the facility to identify which groups of controlled medications will require a double signature. The settings will allow for options in Add to Mar and administration.

Schedule Code	Schedule Description	Add To MAR	Med Administered
01	ETHICAL	<input type="checkbox"/>	<input type="checkbox"/>
02	HOMEOPATHIC	<input type="checkbox"/>	<input type="checkbox"/>
03	NARCOTIC	<input type="checkbox"/>	<input type="checkbox"/>
04	NARCOTIC (CDSA I)	<input type="checkbox"/>	<input checked="" type="checkbox"/>
05	NARCOTIC (CDSA II)	<input type="checkbox"/>	<input checked="" type="checkbox"/>
06	OTC	<input type="checkbox"/>	<input type="checkbox"/>
07	SCH G (CDSA III)	<input type="checkbox"/>	<input checked="" type="checkbox"/>
08	SCH G (CDSA IV)	<input type="checkbox"/>	<input checked="" type="checkbox"/>

10	SCHEDULE F	<input type="checkbox"/>	<input type="checkbox"/>
11	SCHEDULE RECOMMENDED	<input type="checkbox"/>	<input type="checkbox"/>
12	TARGETED (CDSA IV)	<input type="checkbox"/>	<input checked="" type="checkbox"/>

2.5.4 FEATURE: Settings for Double Signature Options

LOCATION: Settings > e-MAR > Options

NEW: Three new options have been added to the e-MAR options settings that will enable the double signature feature in the application.

1. Enable Double Signature Administration of Controlled Medications
2. Enable Batch Double Signature Administration of Controlled Medications
3. Enable Double Signature Add to MAR

2.5.5 FEATURE: Double Signature for Controlled Drugs on MAR Administration

LOCATION: e-MAR > MAR Administration Screen

NEW: A new feature has been implemented for those sites that require a second signature to administer controlled medications. With this setting turned on, any controlled drug being administered will prompt a pop-up for the second user login and password. If the user is an active user and their role permissions are set to allow for a second signature, the medication will be administered or not administered according to what is being asked to be recorded.

Medication	Image	Time	Special Instructions	Administered	Not Administered
MEPERIDINE HYDROCHLORIDE - (50 MG) 1 (50 MG) Add to MAR/TAR Entry Start from 2014-04-04 1600 To 2014-04-18 1600 RX: ATM300369 ON HAND: 15 (Click to see details) Admin History Manage Order		1600			Due

Second Signature Required.

This order requires a witness signature to be collected.
Please request another staff member to enter their credentials below:

User Name 

Password 

2.5.6 FEATURE: Double Signature for Controlled Drugs on Add to MAR

LOCATION: e-MAR > MAR/TAR > Orders > Add to MAR/TAR

NEW: The *Add To MAR* function will now require two signatures regarding Controlled drugs if the "Enable Double Signature Add To MAR" is turned on in e-MAR settings. With this setting turned on, any controlled drug being administered will prompt a pop-up for the second user login and password. The second signature will need to be given by any user whose permissions are set to allow for a signature.

Drug	meperidine	DEMEROL
Generic Name		MEPERIDINE HYDROCHLORIDE

Second Signature Required.

This order requires a witness signature to be collected.
Please request another staff member to enter their credentials below:

User Name 

Password 

2.5.7 FEATURE: Double Signature for Controlled Drugs Order Edit

LOCATION: e-MAR > MAR/TAR > MED Pass Status > MAR Administration screen > Manage Order > Edit Order

NEW: The *Edit Order* function for Controlled drugs will now require two signatures if the "Enable Double Signature Add To MAR" and "Enable Double Signature Administration of Controlled Medications" is turned on in e-MAR settings. With this setting turned on, any controlled drug being administered will prompt a pop-up for the second user login and password. The second signature will need to be given by any user whose permissions are set to allow for a signature.

2.5.8 FEATURE: Pharmacy Dispensing System Identifier (PDS)

LOCATION: Settings > e-MAR > Options

NEW: This setting will be visible to the user in order to verify that the correct PDS has been selected. However, this is not be editable by the user. It will be set by MED e-Care during the facility setup phase and can only be changed by MED e-Care in the event that changes need to be made.

2.5.9 FEATURE: Passtime Labels

LOCATION: Settings > e-MAR > Passtime

NEW: Users are now able to manage the names of MED Passes. Descriptive labels can be added to set medication administration or pass times. Some examples of this would be: breakfast pass, lunch pass, or dinner pass.

Passtime

Passtime Setup

Number of Pasmistimes:

<input type="text" value="Label"/>	Passtime 1 Start Time	<input type="text" value="0000"/>	Ends	<input type="text" value="0659"/>

<input type="text" value="Label"/>	Passtime 4 Start Time	<input type="text" value="1301"/>	Ends	<input type="text" value="1459"/>
<input type="text" value="Label"/>	Passtime 5 Start Time	<input type="text" value="1500"/>	Ends	<input type="text" value="1800"/>
<input type="text" value="Label"/>	Passtime 6 Start Time	<input type="text" value="1801"/>	Ends	<input type="text" value="2300"/>
<input type="text" value="Label"/>	Passtime 7 Start Time	<input type="text" value="2301"/>	Ends	<input type="text" value="2359"/>

Verified By on 2010-05-21

2.5.10 FEATURE: User Permission to Provide Second Signature

LOCATION: Settings > Security > Application Roles

NEW: This new role permission for the MAR will allow a user to provide the second signature for medications that require a double signature. It is not mandatory that this individual be an active application user. This provides more flexibility and allows the Facility to choose freely.

Application Roles

Role Information

Role Name	Role Description
DoubleSignature	Test Double Signature sign

Can provide the second signature for medications that require a double signature							<input checked="" type="checkbox"/>		
Edit Control Schedule									<input type="checkbox"/>

2.5.11 FEATURE: Medication Expired/Expiring MAR display

LOCATION: Settings > e-MAR > Options

NEW: There are now two new settings that allow users to set an alert when an order is approaching, has reached, or has passed the end date (the last date on which the order would normally be present on the MAR sheet).

Alert the user that a medication is about to expire	3	▲ ▼
Retain expired medication on the MAR administration screen	1	▲ ▼

Below are the alerts:

1. Alert the user that a medication is about to expire [___] days prior to the end date. Enter "0" to prevent the alert from being displayed.

2. Retain expired medications on the MAR administration screen [___] days after the end date. The user will not be able to administer an expired medication. Enter "0" to prevent expired medications from being displayed.

2.5.12 FEATURE: Medication Review for Reorder display

LOCATION: Settings > e-MAR > Options

NEW: This option in settings will display the *Review for Reorder* message on the resident’s MAR Administration screen. This message, as per the days selected in settings, is dependent on the medication quantity that remains.

Reorder Review Number of Days Prior to Expiry	2	▲▼
Reorder Review Number of Days On or After Expiry	1	▲▼

2.5.13 FEATURE: Administration Location Body Map Setting

LOCATION: Settings > e-MAR > Options

NEW: A new ‘Use Body Map to record administration locations’ option in settings has been implemented. This will turn on or off the body map that displays on a resident’s medication administration screen. The ‘Number of historical entries to be displayed on MAR Body Map’ option also allows the user to choose the number of historical administrations to show on the map.

Use body map to record administration locations	<input checked="" type="checkbox"/>
Number of historical entries to be displayed on MAR body map	5 ▼

2.5.14 FEATURE: Body Map for Medication Administration Location

LOCATION: e-MAR > MAR/TAR > MED Pass Status > Unit > Scheduled > Medication Administration Screen

NEW: This body map will allow the user to document on the map exactly where the medication was administered. These can be in the form of patches, injections, where to apply ointments and so on. The feature will also provide a historical view of administration by displaying a progressively lighter blue color coding.

2.5.15 FEATURE: Wasted Dosage Progress Note

LOCATION: e-MAR > MAR/TAR > MED Pass Status > Unit > Scheduled > Medication Administration Screen

NEW: When a dose or part thereof is wasted, the user can document notes in the note field provided. These notes will directly be duplicated in the e-Notes module for the resident as a Progress Note.

2.5.16 FEATURE: Start and End Date display on MAR Administration Screen

LOCATION: e-MAR > MAR/TAR > MED Pass Status > Unit > Scheduled > Medication Administration Screen

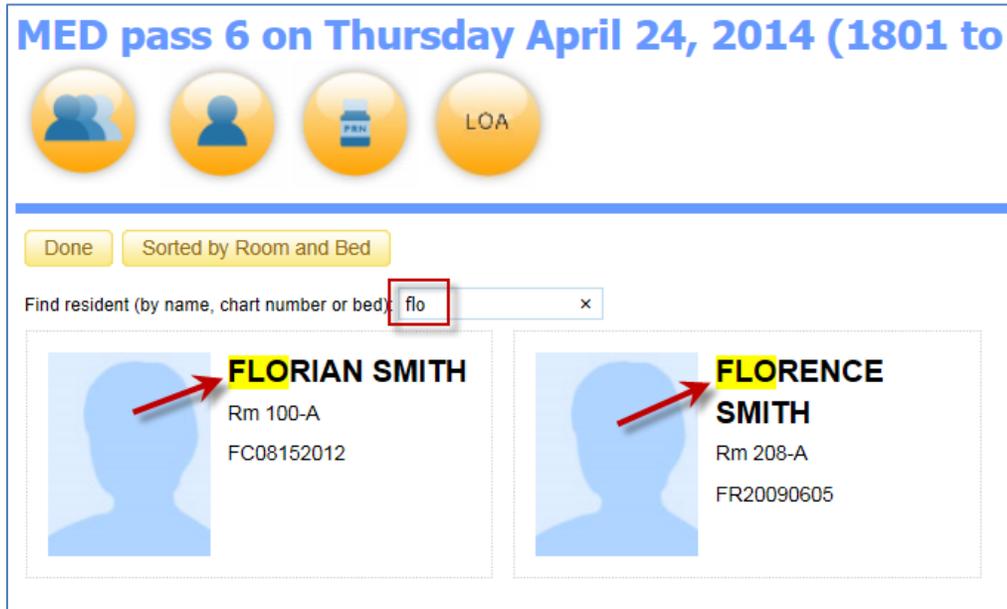

NEW: The medication Start and End date are now clearly displayed on the administration screen.

2.5.17 FEATURE: Optimized Resident Search in MED Pass

LOCATION: e-MAR > MAR/TAR > MED Pass Status > Unit > Scheduled

NEW: The resident search field for the MED Pass has been optimized to allow for a quicker and easier search function. When the user begins to type in the search field, the results will be shortlisted as such.

2.5.18 FEATURE: Security Setting on each Edit Order field

LOCATION: Settings > Security > Application Roles

NEW: Each field in *Edit Order* option now has separate security, so that any combination of the fields can be accessible by the user based on their role.

Update Instruction	<input type="checkbox"/>
Update Quantity for Brought from Prior	<input type="checkbox"/>
Update Quantity for Carried to Next	<input type="checkbox"/>
Update Quantity for Destroyed/Returned	<input type="checkbox"/>
Update Quantity for Unaccounted	<input type="checkbox"/>
Update Route	<input type="checkbox"/>
Update Schedule	<input type="checkbox"/>

2.5.19 FEATURE: Variable Dose and Zero Dose Administration

LOCATION: Settings > e-MAR > Options

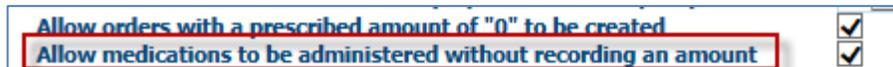

NEW: To facilitate the administration of variable-dose medications, we have created new settings options to compliment the e-MAR.

1. We have added the **Allow orders with a prescribed amount of "0" to be created** setting.

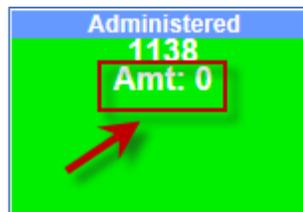

If the setting is selected, the user will be able to add a resident’s medication order on the Add to MAR screen with a dosage amount of ‘0’. With this zero dosage order added, the user can now key in the correct amount administered on the MED Pass based on the medication strength.

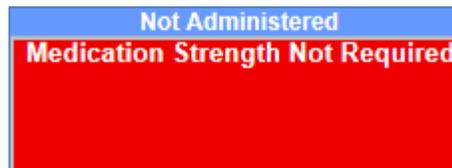

2. Also added, is the **Allow medications to be administered without recording an amount** setting.

If this setting is selected, the user will be able to enter an amount of ‘0’ for administration if that particular drug strength was not needed for complete administration.

3. The **Medication Strength Not Required** option has also been added the list of reasons for not administering a medication. *This will apply to United Kingdom sites only.*

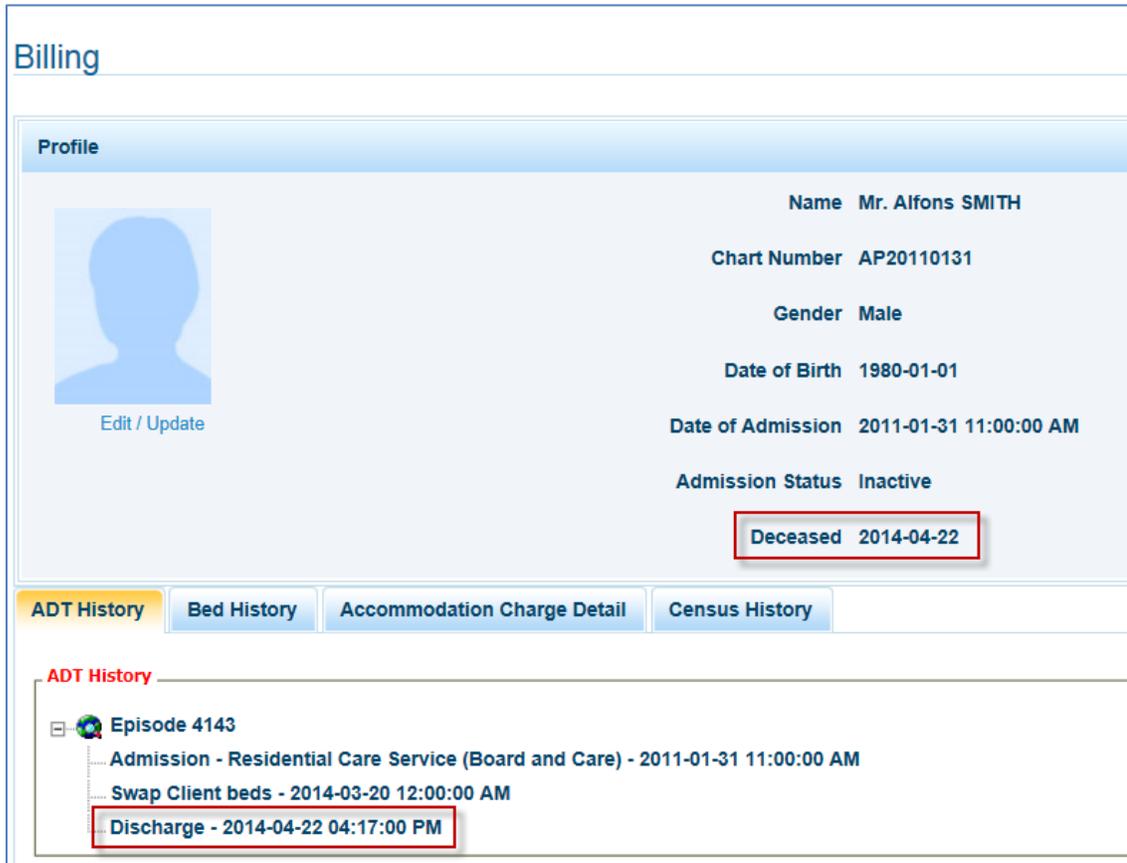

2.6 e-Financials

2.6.1 FEATURE: Deceased Date Display on in Resident Process Section

LOCATION: e-Financials > Resident Process > All tabs

ENHANCEMENT: A resident's deceased date is now displayed on all tabs in the Resident Process section.

2.8 Forms Builder

2.8.1 FEATURE: Ability to select the visibility of Custom Assessments

LOCATION: Settings > Forms Builder

NEW: The Facility now has the ability to select the visibility of globally defined custom assessments at the facility level. The user can now filter based on Visibility and Tool Name. Actions that exist are to view the tool and Show/Hide the tool.

The screenshot shows the 'Forms Builder' interface. At the top, there is a navigation bar with various menu items. Below it, a breadcrumb trail leads to 'Forms Builder'. The main area is titled 'Assessment Tools' and features an 'Advanced Search' section. Two search filters are highlighted with red boxes: 'Visibility' (with a dropdown menu showing 'Hidden' and 'Visible') and 'ToolName'. Below the search filters is a table of assessment tools. The first row of the table is highlighted in blue and has a red box around its 'Action' column, which contains a trash can icon and a green checkmark. The table lists three tools: 'pain', 'Post Fall Screen', and 'Resident Mobility Assessment', all of which are of type 'Local'.

Action	ToolName	Type
	pain	Local
	Post Fall Screen	Local
	Resident Mobility Assessment	Local

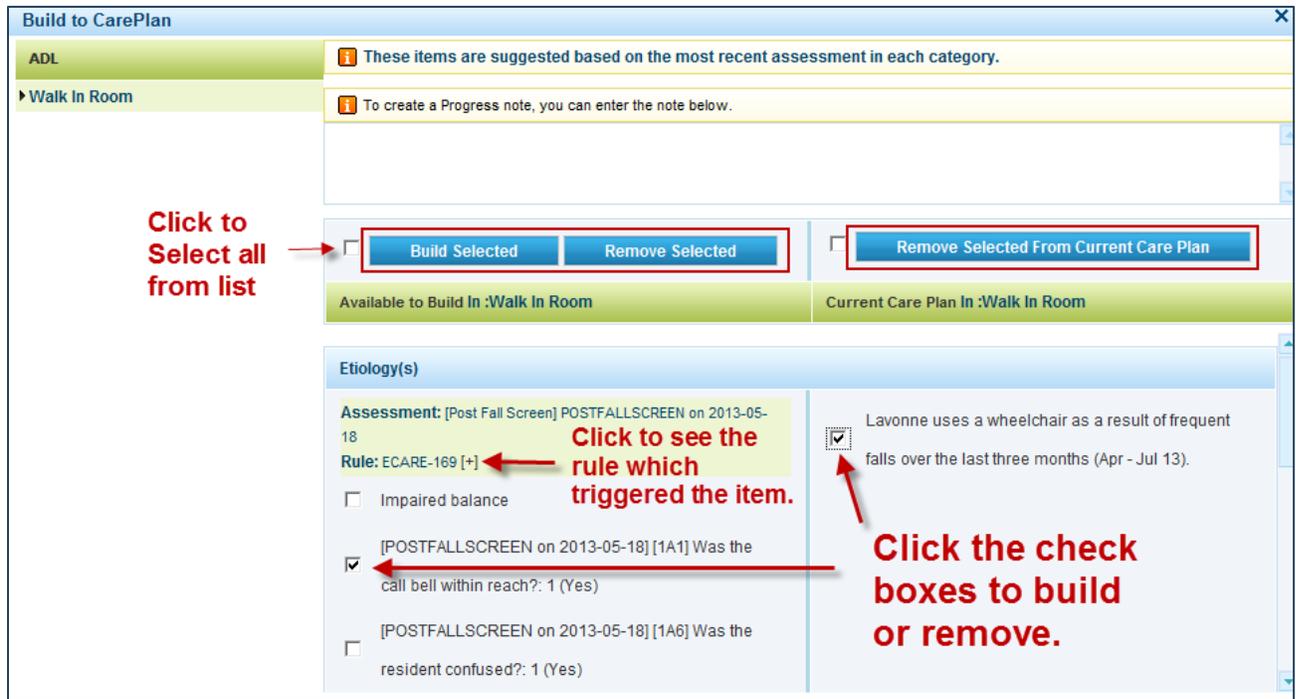

2.9 Relationship Builder

2.9.1 FEATURE: Build to Care Plan from Assessment

LOCATION: e-Plan > Build To Care Plan Window

ENHANCEMENT: Building or Removing Care Plan items through the Build to Care Plan Window is now faster and easier. This has been improved by providing the ability to check multiple items for adding. Removing multiple items from the current Care Plan can be done in the same manor.

Any items removed from the list will be removed permanently. The next time the Build to Care Plan window is accessed those items will not be visible.

The screenshot shows the 'Build to CarePlan' window with the following elements:

- ADL Section:** A yellow banner states, "These items are suggested based on the most recent assessment in each category." Below it, a sub-section for 'Walk In Room' has a banner: "To create a Progress note, you can enter the note below." A text input field is provided.
- Action Buttons:** Three buttons are visible: "Build Selected", "Remove Selected", and "Remove Selected From Current Care Plan". A red box highlights the first two, with an arrow pointing to them from the text "Click to Select all from list".
- Available to Build In:** A green bar shows "Available to Build In :Walk In Room".
- Current Care Plan In:** A green bar shows "Current Care Plan In :Walk In Room".
- Etiology(s) Section:**
 - Assessment:** [Post Fall Screen] POSTFALLSCREEN on 2013-05-18
 - Rule:** ECARE-169 [+]
 - Item 1:** [POSTFALLSCREEN on 2013-05-18] [1A1] Was the call bell within reach?: 1 (Yes). This item has a checked checkbox. A red arrow points to it from the text "Click the check boxes to build or remove." Another red arrow points to the rule above it from the text "Click to see the rule which triggered the item."
 - Item 2:** [POSTFALLSCREEN on 2013-05-18] [1A6] Was the resident confused?: 1 (Yes). This item has an unchecked checkbox.
 - Text:** Lavonne uses a wheelchair as a result of frequent falls over the last three months (Apr - Jul 13).

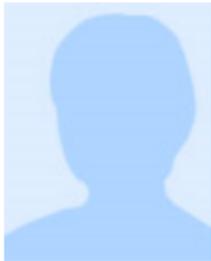

2.10 Patient Profile

2.10.1 FEATURE: Discharged or LOA Status display on Patient Profile

LOCATION: Quick Entry/Resident Name > Patient Profile > Basic Information

ENHANCEMENT: The Patient Profile has now been enhanced to display the Discharged or LOA Status for a resident.

b) Reports – Care Plan

b.1 FEATURE: Tamiflu drug added to Face Sheet/Profile Report

LOCATION: e-Reports > Care Plan > Individual/Group > Face Sheet/Profile

ENHANCEMENT: This report has been modified to add Tamiflu to the Medical History list displayed.

Medical History	
Flu Shot	:
Pneumovax	:
TB Testing	:
X-Ray	:
Tetanus Shot	:
TamiFlu	:

b.2 FEATURE: Group Face Sheet/Profile Report

LOCATION: e-Reports > Care Plan > Group > Face Sheet/Profile

NEW: This new report can be run for all residents based on the parameters Status, Unit/Program and Facility. It includes the resident's demographic and medical information. For those situations where the most current Resident/Patient Data is needed, this is a useful report to generate.

Face Sheet/Profile					
Admission Date : 2013-10-04			Original Admission Date : 2013-10-04		
Health Card Number : -70: Asked, unknown			Date of Birth : 1980-01-01		
Marital Status : Widowed			Gender : F		
Language :			Religion:		
Ethnicity :					
Primary Physician

Flow Diagnosis from eADT to ePLAN

b.4 FEATURE: Residents and Activities Report

LOCATION: e-Reports > Care Plan > Group > Residents And Activities

NEW: This new Resident and Activities report shows the activities residents have joined as shown in the Activity tab of the Care Plan. This will allow the user to see which activities the resident has attended within the time specified in the report parameters. Residents And Activities Reports Note: If Unit is selected as Group 1 in Group By (irrespective of what is selected in Group 2), the report title is "Activity By Resident"; if Activity is selected as Group 1 in Group By, the report title is "Resident By Activity". If Group 1 is None, the title is "Residents and Activities"

Activity By Resident					
Unit	Name	Room	Bed	Activity	Notes
Unit : Unit 1					
Activity : 1:1					
Unit 1	Smith, Ivor			1:1	Ivor will be encouraged to participate in 1:1 activities when awake and alert.
Activity : Baking					
Unit 1	Smith, Winnifred Mabel	323	A	Baking	
Activity : Cards, other games					
Unit 1	Smith, Bernard	301	B	Cards, other games	
	Smith, Claire	306	B		
	Smith, Dorothy 'Fern'	302	B		
	Smith, June Maxine	307	A		
	Smith, Vilma	313	A		Joins in physical games - cant grasp concepts of cognitive games
	Smith, Winnifred Mabel	323	A

Activity : 1:1					
Activity : 1:1					
Unit 1	Smith, Ivor			1:1	Ivor will be encouraged to participate in 1:1 activities when awake and alert.
Activity-1:1 : 1Clients					

b.5 FEATURE: New Weight/Height History Report

LOCATION: e-Reports > Care Plan > Group > Weight/Height History

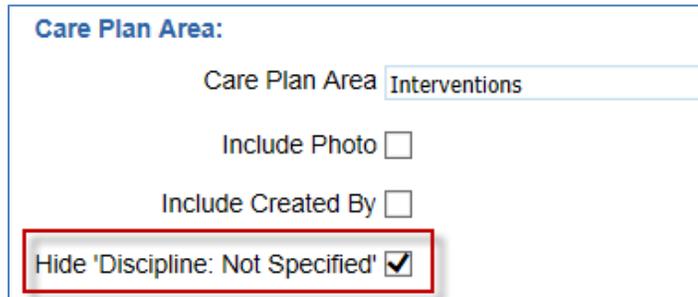

NEW: There is now a weight/height history report that will include the ability to show a graph, include a BMI legend and also exclude empty data. If the latter is included, then the report will display a list of all the residents without weight/height. The report will also display the Most Recent Weight/Height. It can be generated for an individual, a unit or the whole facility.

b.7 FEATURE: New Vital Signs History Report

LOCATION: e-Reports > Care Plan > Group > Vital Signs History

NEW: The new vital signs history report has replaced the Vital Signs, Vitals History (Individual and Group), and Weight History Graph reports. The purpose of this report is to show clients' vitals history based on a selected period. The report can be generated for one individual client or for a group of clients by unit, program or for the entire facility. The report offers an option to include the graph presentation on the vital signs history. To minimize the size of the report, there is also an option to exclude empty data which means any client that does not have any value for weight or height for the period selected will not be included.

d) Reports – Financial

d.1 FEATURE: Financial Report Descriptions

LOCATION: e-Reports > Financial

NEW: Eight of the remaining financial reports now have detailed descriptions. Among them are AR Detail, Billing Activity, PAP Log, PAP Result, Payment Agent Invoice, Pre-Authorized Payment, Resident Payments, Trust Statement.

Title:
AR Detail

Purpose:
The AR Detail report gathers all posted Accommodation, Recurring, Ancillary charges and all deposited Payments to provide an up to date debit or credit balance of each client for the selected billing period. The report can be run for All clients or for an individual of a given period.

Parameters:

- Billing Period:** user may choose a complex date range from the 'From – To' calendar. Normally, date selection is full billing period, i.e. 2012-08-01 to 2012-08-31.
- Client search:** this option is used to run the AR detail report for a single client, leave it blank to run the report for group.

d.2 FEATURE: Enhanced Census Summary by Bed Status report

LOCATION: e-Reports > Financial > Census > Census Summary by Bed Status

ENHANCEMENT: The report has been enhanced to have vacant bed slots show as a blank space. We have removed the 'V' for Vacant and left it blank for more clarity.

e) Reports – MAR

e.1 FEATURE: New Medication Returned/Destroyed Report

LOCATION: e-Reports > Medication

NEW: This report shows a list of medications that have been marked as returned/destroyed using the Edit Order function. This report serves as a record for all medications that have returned to pharmacy or disposed of. The report provides a section for witness signature. The report can then be signed by the Pharmacy or Waste Collector as part of the facility's record keeping.

Medications Returned/Destroyed									
Medication Returned/Destroyed from 2014-04-01 to 2014-06-30					Sector(s): Longterm Continuing Care

e.6 FEATURE: Special Instructions display on reports

LOCATION: e-Reports > Medication

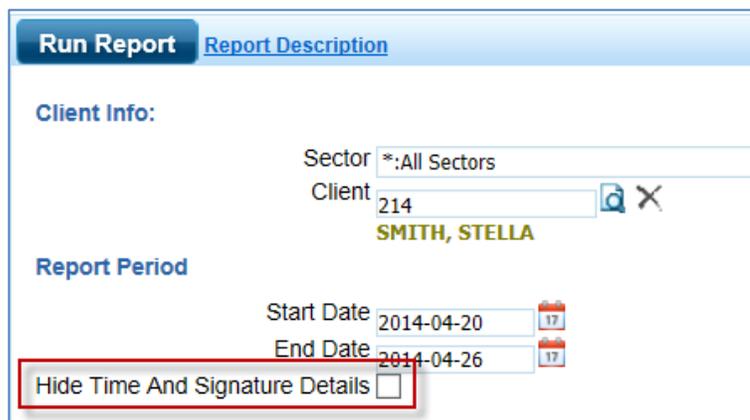

NEW: *Special Instructions* that are transferred to a resident's MED Pass through an interface will be displayed on the following reports: Medication/Treatment Administration Record, Physician Review, Medication Reconciliation and Medication Summary.

f) Reports – POC

f.1 FEATURE: Hide Time and Signature Details option

LOCATION: e-Reports > POC

ENHANCEMENT: The *Hide Time And Signature Details* checkbox has been added to the parameters for the following reports: Documentation Flow Sheet, Flow Sheet, Time Sheet(s), Nursing Rehab and Dietary. This allows the user the option of having time and signature stamps for each entry.

The screenshot shows a web interface for running a report. It has two tabs: "Run Report" (active) and "Report Description". Under "Client Info", there is a "Sector" dropdown set to "*:All Sectors" and a "Client" search field containing "214". Below the search field, the name "SMITH, STELLA" is displayed. Under "Report Period", there are "Start Date" and "End Date" fields, both set to "2014-04-20" and "2014-04-26" respectively, with calendar icons. At the bottom, a checkbox labeled "Hide Time And Signature Details" is present and is highlighted with a red box.

g) Reports – Rehabilitation

g.1 FEATURE: Ensured Discharge Filter on reports

LOCATION: e-Reports > Rehabilitation > Group Reports

ENHANCEMENT: The following reports have been enhanced to ensure that data that is directly related to the residents' selected ADT discharge date range: Pain Management, Discharge Profile and Functional Status Gain.

h) Reports – Retirement

h.1 FEATURE: New Transfer and Referral Report

LOCATION: e-Reports > Retirement > Individual Reports > Transfer and Referral

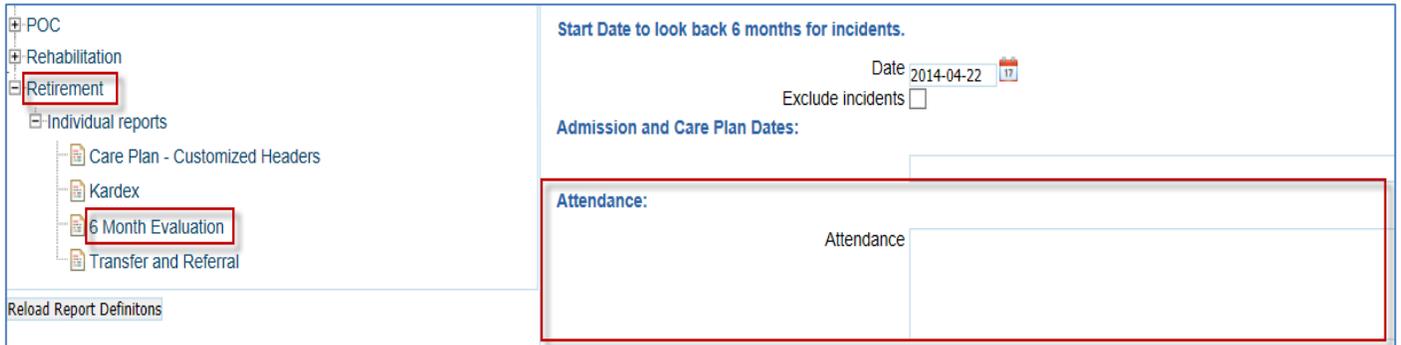

NEW: The new Transfer and Referral report has been added. This Report defaults to not show ADL items. The ability to turn ADL items back on through check boxes is available. A check box to not populate the report using latest Vitals has also been included.

2.12 Miscellaneous

2.12.1 FEATURE: Role Permission to Manage Home Page Announcements

LOCATION: Setting >Security >Application Roles

ENHANCEMENT: We have enhanced the Home Page Announcement function and provided the ability to assign security roles to any user who would manage announcements.

In settings, assign the security for the Announcement role and then enable as needed in the Employee User Setup.

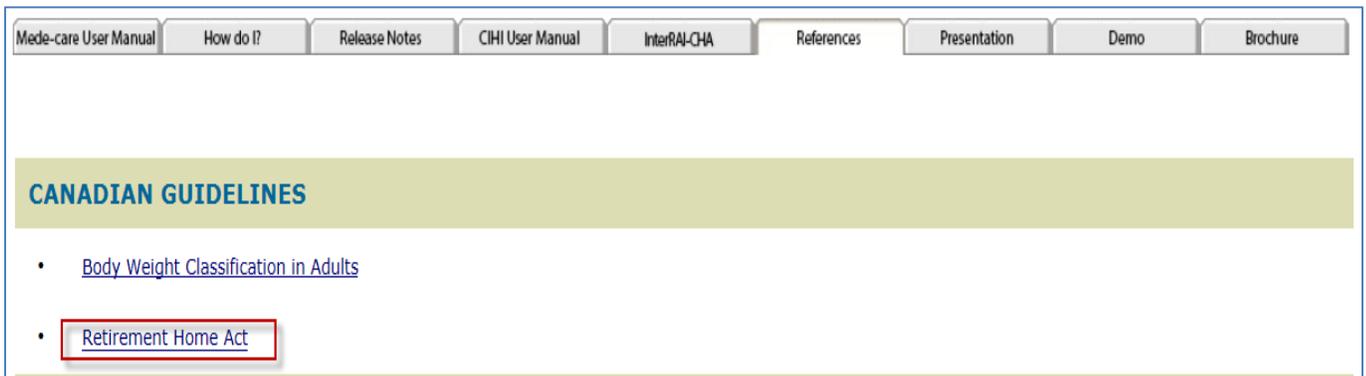

Object Name	Parent	Read	Write	Create	Delete	Execute	Sign	View	Full Control
Edit Announcement		<input type="checkbox"/>							

2.12.2 FEATURE: Retirement Home Act

LOCATION: Help > References > Retirement Home Act

ENHANCEMENT: A copy of the Retirement Home Act has been added the application's list of Reference material.

ZENDESK and HELP LINKS

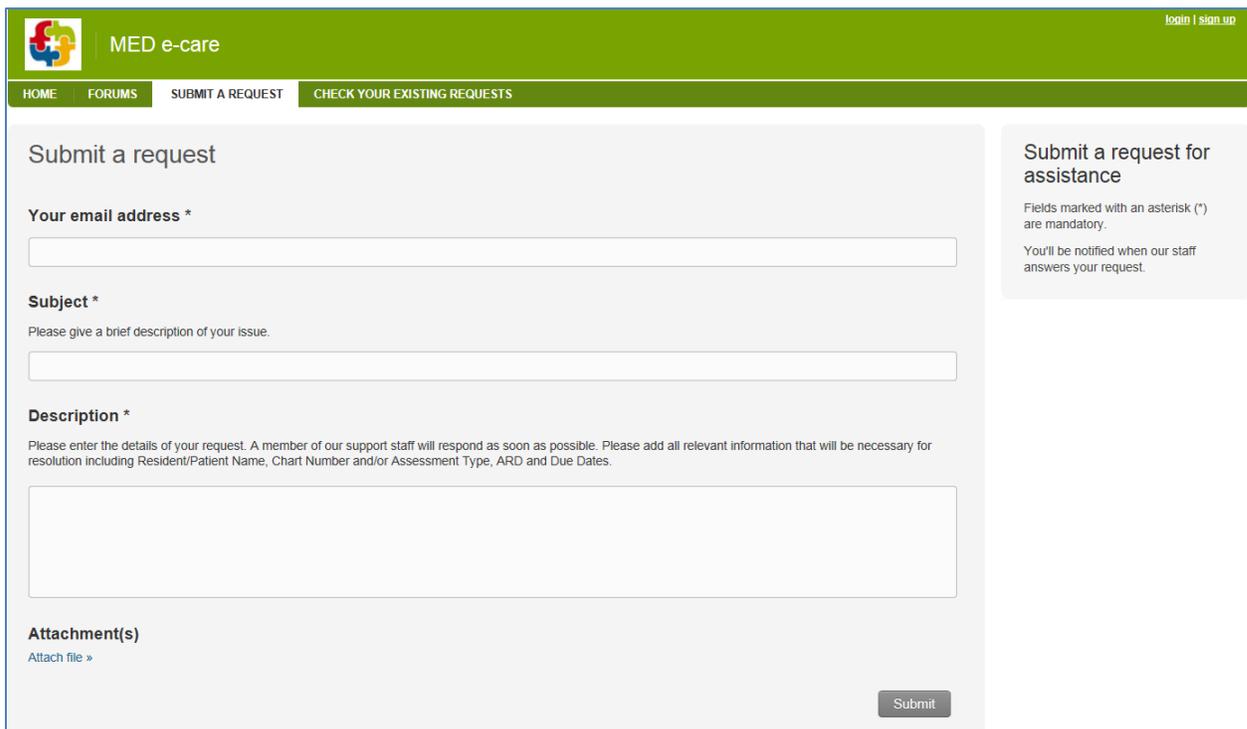

Check out our Forums page on Zendesk!

Zendesk operates primarily as our online ticket tracker, but there are a host of resources built to help you make the best use of your MED e-Care software.

For instance, under our *Community Help* section, the question was asked and another user answered ‘How do I print completed RAI assessments’. In FAQ/Tips and Tricks you’ll find how-to articles such as, ‘How to create a Delete record’ and ‘How to add a Custom Etiology to Care Plan’.

There is a whole lot more! So go ahead and check it out!

For those new to Zendesk, it’s easy to sign up – just click <https://medecare.zendesk.com> or click the ‘Support’ link in the top right hand corner of the software and follow the simple steps.

The screenshot shows the 'Submit a request' page in the MED e-care Zendesk interface. The page has a green header with the MED e-care logo and navigation links: HOME, FORUMS, SUBMIT A REQUEST, and CHECK YOUR EXISTING REQUESTS. The main content area is titled 'Submit a request' and contains several input fields: 'Your email address *', 'Subject *', and 'Description *'. The 'Description *' field has a detailed instruction: 'Please enter the details of your request. A member of our support staff will respond as soon as possible. Please add all relevant information that will be necessary for resolution including Resident/Patient Name, Chart Number and/or Assessment Type, ARD and Due Dates.' Below the description field is an 'Attachment(s)' section with an 'Attach file »' link. A 'Submit' button is located at the bottom right of the form. On the right side of the page, there is a sidebar titled 'Submit a request for assistance' with a note: 'Fields marked with an asterisk (*) are mandatory. You'll be notified when our staff answers your request.'

Reference materials are just one click away from within the software too! Select the ‘Help’ link, located at the top, right-hand corner of the MED e-Care screen and a new window will appear with links to **Manuals, Release Notes** and **other useful documentation**.
