

How to Manage Admissions in MED e-care with the Nourish Interface

Once the integration between MED e-care’s eMAR and Nourish’s Care Planning solutions is activated, all resident admissions must be handled in **Nourish**.

1. Admit your resident into Nourish (please contact [Nourish](#) directly if you require support with this step).
Remember to enter your resident’s NHS/CHI number in Nourish. This is to allow your pharmacy to send medication data for that resident.

2. Resident data will flow across the interface into MED e-care as a Pre-Admission. These can be seen on the New Admissions Widget on your MED e-care Dashboard:

The screenshot shows the MED e-care dashboard with the following elements:

- Top navigation bar: Home, **Dashboard**, e-ADT, e-MAR, e-Reports, Settings, My Account, Account Management, Admin, Message Center.
- Sub-navigation bar: **Dashboard**, Enterprise Business Intelligence.
- Configuration bar: Configure Widgets, Unit: All Units.
- New Admissions** widget header with a refresh icon and a Cancel button.
- Search and filter options: Search in results..., All, 1 wk, 2 wks, All, **Pre-Admission**, Admitted.
- Table with columns: Bed, Chart #, Resident, Admission Date, Status, Sector.
- Table data:

Bed	Chart #	Resident	Admission Date	Status	Sector
21		Smith, David	25-06-2024	Pre-Admission	CC
22		Green, Alan	19-06-2024	Pre-Admission	CC
- Footer: First Page, < 1 2 >, Last, Total items: 13, Export CSV.

3. Click on the resident to complete their Admission into MED e-care.

4. Most of the data will be pre-populated from the details you entered into Nourish.

5. Click on the "Admission Information" tab:

Admission Document

The screenshot shows the "Admission Information" tab selected in a software interface. The form contains the following fields:

- Admission Date: 25-06-2024
- Admission Time: 00:00
- Program: --Select--
- Unit: * --Select--
- Bed: * [Empty field with icons]
- Lived Alone: Yes No Unknown

The "Admission Information" tab is highlighted with a red box.

6. Select the Bed icon to choose an available bed:
