MED e-care & Nourish Pre-Integration Home Checklist

Nourish is the system of record for your resident details. Resident details in Noursh will create or overwrite the resident details in MED e-care.

You must review the following in Nourish to ensure that the resident data in MED e-care is accurate:

☑ **NHS/CHI Numbers.**
The NHS/CHI number MUST be entered accurately into Nourish. If it is missing or incorrect, you will not be able to receive medication data from your pharmacy for that resident. It should be a **10-digit number**.
The NHS/CHI number **MUST NOT** contain any of the following:
- ✗ Spaces
- ✗ Letters
- ✗ Hyphens

Correct example: 9435797881
Incorrect examples: 943 579 7881, NHS9435797881, 943-579-7881, 9435797881A

☑ **Date of Birth**
The date of birth in Nourish must be accurate.

☑ **Admissions and Discharges**
Please discharge any residents no longer at the home in Nourish.

☑ **Date of Admission**
Please make sure that the resident's date of admission to the home is accurate.

☑ **Gender in Nourish**
Please make sure that the 'Gender' field is completed in Nourish and is accurate.

☑ **Allergies in Nourish**
Please make sure that the allergies entered into Nourish are accurate

☑ **Photo in Nourish**
Please make sure that the resident's photo is up to date in Nourish.

☑ **Resident Status in Nourish**
Check that the "Resident Status" is accurate in Nourish.
Only residents with the status "Onboarding", "Admitted" or "Emergency Admission" in Nourish will map across to MED e-care.

Once the integration is switched on, you only need to admit new residents into Nourish. They will appear in MED e-care automatically as a Pre-Admission. These can be viewed on the "New Admissions" widget on your Dashboard.
