Sign Up

Fill out the requested information. Use your personal email address as this is where your certificate of completion will be sent to.

Just a reminder that this is NOT the same credentials you use on the actual Med e-care application.

Click Sign Up on the bottom right.

Course Catalog

The screenshot shows the Course Catalog interface. On the left is a vertical navigation bar with several icons; the third icon from the top, representing a grid or list, is highlighted with a red box. The main content area is titled "Course Catalog" and includes a search bar, two filter dropdowns labeled "Learning Type" and "Category", and a grid of course cards. Each card features a collage of images, the MEDE-CARE logo, a course title, a "General" tag, and a "View Details" button. The visible course titles are "Add to MAR Manually", "Batch Notes, 1", "Bio Tests", "Edit/Manage c", "Incident and Follow-up Notes", and "Managing Use".

On the left panel, hover your cursor over to the third icon that says "Course Catalog" and click it.

It should display all the available e-Learning modules to you.

Modules that need to be completed for eMAR Go-live:

A. Managers/Superusers:

a.1 Add to MAR
